

Camille Brannon, NP

Additional Background

I was raised in Honolulu, Hawaii and enjoyed most of my free time at the beach. I earned my Bachelor of Science in Nursing from Georgia State University. I worked in Telemetry, Step Down ICU, pediatrics, Gastroenterology adults and pediatrics, procedural sedation nursing, peri operatives and PACU over a period of 26 years. I obtained my Masters in Nursing at Walden University in 2018. I worked in Maryland specializing in Obesity and weight loss. I am very excited and feel blessed to be a part of Mount Anthony Primary Care.

I have one grown son, a beautiful daughter in law and four energetic grandchildren living in Oahu.

In my free time I enjoy reading, yoga, traveling, the outdoors and volunteer work. I moved to Bennington because I like small town living, the beautiful state of Vermont and snow!
