

June 10, 2022

Dear Patient,

It is with mixed emotions I announce I will be leaving St. Albans Primary Care effective September 1, 2022. The decision to leave has not been an easy one and was motivated by family considerations. I will be relocating to Canada, where I plan to continue to practice.

The relationships I built with patients have been an important part of my own growth and have enriched my life in ways that I cannot fully express in such a letter as this. The trust and confidence that people place in their primary care provider is an amazing thing and I am grateful to have had the opportunity to have served patients in greater Northwestern Vermont. St. Albans has always felt like home since I moved here from Canada at eight years old. People at work and patients have continued to make this place a home and I will not stop thinking about them for years to come.

While it is always difficult to start with a new primary care provider, St. Albans Primary Care is committed to trying to make this transition as smooth as possible. A new full time nurse practitioner, Robyn Santor, will be joining the team in the coming months. I participated in the interview process for this position and feel confident that Robyn is the right choice to join our practice.

It has been a great pleasure providing for your health care needs over the years. Please allow St. Albans Primary Care to serve your health care needs and I hope that this letter finds you in good spirits.

Sincerely,

A handwritten signature in black ink, appearing to read "David Manchester".

David Manchester, NP
